

To The Hon. Justine Elliot , Member for Richmond.

**Re - Imposition of NBN microwave radiation tower at 655b Main Arm Rd.
Main Arm 2482**

I know it is my duty to keep you informed of my will on issues and matters that concern the people of the Commonwealth of Australia.

As my elected representative you are required to execute my will in accordance with your duty of office and pursuant to the Commonwealth of Australia Constitution Act 1901. The sole purpose of parliament is to act and administer services in accordance with the will of the people it represents.

I require you to instruct NBN Co, the Minister for Communications and all parties liable in this matter, it is **my will** that this proposal not proceed in accordance with point **e]** and the other following reasons -

- a) Having chosen to live in an area as yet not polluted by microwave radiation, I do not wish to be assaulted by this legislated toxic pollutant against my will. The EMR will therefore become a nuisance if it causing interference in the form of any discomfort, fear and harm.
- b) That NBN co abide by The Object of the ARPANS Act as stated in section 3 of the act ; 'The Object of this Act is to protect the health and safety of people, and to protect the environment, from the harmful effects of radiation.
- c) It is within 500m a primary and pre school contrary to Dept of Ed. policy.
- d) The 45m tower will be visually offensive in the escarpment landscape resulting in a loss of community amenity.
- e) NBN Co gave an undertaking to the former Minister for Communications , Malcolm Turnbull "that if there is clear community opposition to the use of fixed wireless technology to provide better broadband , that area would be then serviced by a satellite solution."
